[STATEMENT OF PROBABLE CAUSE / NARRATIVE

On Tuesday, June 29, 2010, at approximately 1514 hours, I responded to for a report of an agency assist.

Upon arrival, I made contact with witness #1; Mark Cassady and witness #2 Collin Hall, both animal control officers with the Okaloosa County Panhandle Animal Welfare Society (PAWS).

Witness #1 stated because of health and safety precautions, and because he had cause to believe the animals had been abandoned by their owner(s) he was going to seize the animals from the property. During the confiscation operation a total of sixteen cats, two kittens and four dogs were removed from the property. While doing so he also observed the skeletal remains of five animals; two inside the home and three outside the home.

Witness #2 stated he observed one animal skull and one skeleton inside a chain link pen on the side of the home, and two more skeletons inside a separate chain link pen, also adjacent to the home. While inside the home he further observed two additional skeletons lying amid a floor covered with feces.

During my interaction with the witnesses I observed four dogs inside the front yard and adjacent to the side of the home

and confined inside a closed chain link pen I observed seven cats, one skull and one partial animal skeleton. Inside a separate pen I adjacent to the front yard of the home I observed one more cat and two additional skeleton remains. Furthermore, inside a pen at the rear of the home I also observed seven additional cats. From the home's exterior I observed a cat sitting on the windowsill of the window inside the home. A check of the entryway doors revealed them to be unlocked and witness #1, witness #2 and I made entry into the home to confiscate the remaining animals. Upon making entry into the home there was an overwhelming stench of feces and urine and I observed all the doors and windows were closed and there were large quantities feces and trash scattered throughout the home. A check of the interior of the home revealed there were four additional cats and two kittens inside. And, while inside the home I further observed the skeletal remains of two additional animals intermingled amongst the feces.

At no time during my investigation did I observe any food sources anywhere on the property, and the water sources that were contained therein appeared to be unfit for consumption. Additionally, during my investigation the defendant; Elizabeth Moore entered onto the property. The defendant identified herself as the home's owner and the owner of the aforementioned animals.

Post Miranda, the defendant stated she had been breeding the cats, but due to the economy, she and her husband lost their business, lost the home, and turned off its power because they had no money. She further stated they left the home approximately two months prior, but she would return to the property every couple of days to provide the animals with food and water and the situation just spiraled out of control.

Based upon the aforementioned information I have probable cause to believe and do believe the defendant; Elizabeth Moore committed the offenses in violation of F.S.S. §28.12.2, cruelty to animals, to wit; she did intentionally commit acts upon animals which resulted in the cruel death or infliction of unnecessary pain or suffering, and F.S.S. §28.13, unlawful abandonment or confinement of an animal, to wit; she did unlawfully and knowingly impound or confine animals and failed to supply the animals during such confinement with sufficient quantities of good and wholesome food and water.

These offenses did occur in Okaloosa County, Florida, where I am a sworn law enforcement officer.

I hereby swear (or affirm) that the facts established on this affidavit are true and correct to the best of my knowledge and belief.
